MEDIA RELEASE

Carolyn Sutton joins Melbourne IT as CFO

MELBOURNE, Australia – 3 March 2010 – Melbourne IT Limited (ASX:MLB) has announced that Carolyn Sutton has joined the company as Chief Financial Officer. Ms Sutton will be responsible for leading the finance function for the Melbourne IT Group globally.

Ms Sutton joins Melbourne IT from Lonely Planet, part of the BBC Worldwide Group, where she was Chief Financial Officer for eight years and one of the organisation's key leaders from both a financial and commercial perspective as the company evolved from a print publishing business to a multi-media travel content company. She was also involved in the sale and post-acquisition integration of the Lonely Planet business into BBC Worldwide.

"Carolyn is a highly credentialed executive with extensive experience leading finance functions across a range of commercial organisations, a strong background in process and systems improvement and in the leadership of global teams," Melbourne IT CEO and Managing Director, Theo Hnarakis, said.

"Having been instrumental as a change agent improving financial reporting and performance management in a number of senior finance roles previously, Carolyn is well qualified to provide global financial leadership and strategy for the Melbourne IT Group. We are delighted to welcome her on board."

Prior to Lonely Planet, Ms Sutton held senior finance positions at Palmer Corporation, Lincraft and Tanner Menzies, where she was responsible for financial reporting, performance management and business planning. She holds a Bachelor of Commerce and is a member of the Australian Society of CPAs.

ENDS.
